

# MUHAMMAD IBRAHIM

Software Engineer | Front-end Developer | CSE UET Lahore | Fresh Graduate

✉ mibrahimm1338@gmail.com ☎ +92 3117611012  mibrahimm1338  Ibrahim's Portfolio

---

## SUMMARY

Frontend-focused Software Engineer skilled in HTML, CSS, JavaScript and Bootstrap, building responsive UIs. Expanding into full-stack MERN development. Passionate about creating seamless, end-to-end web experiences.

---

## EDUCATION

**BSc. Computer Science | CGPA: 3.3**

**Nov 2021 - May 2025**

University of Engineering and Technology Lahore

---

## PROJECTS

### eHopitCare: Web Based Hospital Management System (FYP) | **GitHub**

- Built e-HospitCare, a MERN-based hospital management web app.
- Integrated role-based access and MongoDB for secure, unified data handling.
- I contributed as a front-end developer by building reusable React components and implementing dynamic routing to enhance user interaction.
- Designed scalable RESTful APIs to manage patients, prescriptions, and staff operations.

### Personal Portfolio | **GitHub**

- Built a responsive portfolio using HTML & CSS, leveraging Flexbox and Grid for layout design.
- Enhanced UX with transitions, hover effects, and media queries for optimal viewing across devices.
- Gained hands-on experience in viewport breakpoints and modern CSS techniques for dynamic styling.

### Currency Converter | **GitHub**

- Developed a React-based currency converter with dynamic rate fetching using a live currency API.
  - Learned the use of components and built a custom hook in REACT.
-
